

DIGITAL LEARNING POLICY

HELP FOR NON-ENGLISH SPEAKERS

If you need help to understand the information in this policy please contact the school principal or assistant principal.

PURPOSE

To ensure that all students and members of our school community understand:

- (a) our commitment to providing students with the opportunity to benefit from digital technologies to support and enhance learning and development at school including our 1-to-1 personal device program and shared personal device program dependent on the year level of the children.
- (b) expected student behaviour when using digital technologies including the internet, social media, and digital devices (including computers, laptops, tablets).
- (c) the school's commitment to promoting safe, responsible and discerning use of digital technologies, and educating students on appropriate responses to any dangers or threats to wellbeing that they may encounter when using the internet and digital technologies
- (d) our school's policies and procedures for responding to inappropriate student behaviour on digital technologies and the internet
- (e) the various Department policies on digital learning, including social media, that our school follows and implements when using digital technology
- (f) our school prioritises the safety of students whilst they are using digital technologies

SCOPE

This policy applies to all students and staff at Golden Square Primary School.

Staff use of technology is also governed by the following Department policies:

- Acceptable Use Policy for ICT Resources
- Cybersafety and Responsible Use of Digital Technologies

- Digital Learning in Schools and
- Social Media Use to Support Student Learning.

Staff, volunteers and school councillors also need to adhere to codes of conduct relevant to their respective roles. These codes include:

- Golden Square Primary School's Child Safety Code of Conduct
- The Victorian Teaching Profession Code of Conduct (teaching staff)
- Code of Conduct for Victorian Sector Employees (staff)
- Code of Conduct for Directors of Victorian Public Entities (school councillors)

DEFINITIONS

For the purpose of this policy, "digital technologies" are defined as digital devices, tools, applications and systems that students and teachers use for learning and teaching; this includes Department-provided software and locally sourced devices, tools and systems.

POLICY

Vision for digital learning at our school

The use of digital technologies is a mandated component of the Victorian Curriculum F-10. Safe and appropriate use of digital technologies, including the internet, apps, computers and tablets, can provide students with rich opportunities to support learning and development in a range of ways.

Through increased access to digital technologies, students can benefit from learning that is interactive, collaborative, personalised, engaging and transformative. Digital technologies enable our students to interact with and create high quality content, resources and tools. It also enables personalised learning tailored to students' particular needs and interests and transforms assessment, reporting and feedback, driving new forms of collaboration and communication.

Golden Square Primary School believes that the use of digital technologies at school allows the development of valuable skills and knowledge and prepares students to thrive in our globalised and inter-connected world. Our school's vision is to have our Golden Square Primary School work collaboratively in a safe, kind and respectful environment that inspires a passion and curiosity for learning..

Safe and appropriate use of digital technologies

Digital technologies, if not used appropriately, may present risks to users' safety or wellbeing. At Golden Square Primary School, we are committed to educating all students to use digital technologies safely, equipping students with the skills and knowledge to navigate the digital world.

At Golden Square Primary School we:

- Use online sites and digital tools that support students' learning, and focus our use of digital technologies on being learning-centred

- Use digital technologies in the classroom for specific purpose with targeted educational or developmental aims
- Supervise and support students using digital technologies for their schoolwork
- Effectively and responsively address any issues or incident that have the potential to impact on the wellbeing of our students
- Have planned learning in place to educate our students to be safe, kind and respectful users of digital technologies
- Educate our student about digital issues such as the importance of maintaining their own privacy and security online
- Actively educate and remind students of our school values and behaviour expectations, including online behaviours
- Have an *Acceptable Use Agreement* outlining the expectations of students when using digital technologies for their schoolwork
- Use clear protocols and procedures to protect students working in online spaces, which includes reviewing the safety and appropriateness of online tools and communities and removing offensive content at the earliest opportunity
- Educate our students on appropriate responses to any dangers or threats to wellbeing that they may encounter when using the internet and other digital technologies
- Provide a filtered internet service at school to block access to inappropriate content
- Refer suspected illegal online acts to the relevant law enforcement authority for investigation
- Support parent and carers to understand the safe, kind and respectful use of digital technologies and the strategies that can be implemented at home through regular updates in our newsletter, information sheets, website/school portal and information sessions.

If a student or staff member believes that an account has been used by another person, they must notify the classroom teacher, the Digital Technology teacher, the Assistant Principal, or the Principal immediately.

All messages created, sent or retrieved on the school's network are the property of the school. The school reserves the right to access and monitor all messages and files on the computer system, as necessary and appropriate. Communications including text and images may be required to be disclosed to law enforcement and other third parties without the consent of the sender.

Information on supervision arrangements for students engaging in digital learning activities is available in our *Yard Duty and Supervision Policy*.

Social Media Use

Our school follows the Department's policy on Social Media Use to Support Learning to ensure social media is used safely and appropriately in student learning and to ensure appropriate parent notification occurs or, where required, consent is sought. Where the student activity is visible to the public, it requires consent.

In accordance with the Department's policy on social media, staff will not 'friend' or 'follow' a student on a personal social media account, or accept a 'friend' request from a student using a personal social media account unless it is objectively appropriate, for example where the student is also a family member of the staff.

If a staff member of our school becomes aware that a student at the school is 'following' them on a personal social media account, Department policy requires the staff member to ask the student to 'unfollow' them, and to notify the school and/or parent or carer if the student does not do so.

Student Behavioural Expectations

When using digital technologies, students are expected to behave in a way that is consistent with Golden Square Primary School's *Statement of Values, Student Wellbeing and Engagement Policy, and Bullying Prevention Policy*.

When a student acts in breach of the behaviour standards of our school community (including cyberbullying, using digital technologies to harass, threaten or intimidate, or viewing/posting/sharing of inappropriate or unlawful content), Golden Square Primary School will institute a staged response, consistent with our student engagement and behaviour policies.

Breaches of this policy by students can result in a number of consequences which will depend on the severity of the breach and the context of the situation. These include:

- removal of network access privileges
- removal of email privileges
- removal of internet access privileges
- removal of printing privileges
- other consequences as outlined in our school's *Student Wellbeing and Engagement Policy and Bullying Prevention Policy*.

COMMUNICATION

This policy will be communicated to our school community in the following ways:

- Available publicly on our school's website
- Included in staff induction and child safety training processes
- Discussed at staff meetings as required
- Discussed at parent information sessions
- Included as annual reference in our school newsletter
- Made available in hard copy from the school office upon request

POLICY REVIEW AND APPROVAL

- **Policy last reviewed:** 12th February, 2023
- **Consultation:** Ongoing Consultation – available via school website.
- **Approved by:** School council
- **Next scheduled review date:** This policy is scheduled for review on February 11th 2025.
